

MUNICIPALITIES AND LOCAL AUTHORITIES

Local authorities and, in particular, municipalities are key actors concerning State development and consolidation. Our actions aim to contribute to the public organisations' institutional strengthening in the countries we intervene, as well as in the citizens' participation in public life and affairs. The projects we promoted and collaborated in the past years are located in Guinea-Bissau, East Timor, Angola and Cape Verde. In Portugal, we have been working in partnership with a network of municipalities.
