II Dicionário da Língua Gestual de São Tomé e Príncipe

Dicionário Oficial da República Democrática de São Tomé e Príncipe
Ministério da Educação, Cultura, Ciência e Ensino Superior (MECCES)

ORGANIZAÇÃO E COORDENAÇÃO
Paulo Vaz de Carvalho & Ana Mineiro

A todos os surdos santomenses

*Aos homens e mulheres das nossas vidas que connosco partilham o dia a dia e aos nossos filhos,
particularmente ao pequeno Dinis Carmo Barreto, pelas horas roubadas*

Aos nossos pais que nos ensinaram o caminho

II Dicionário da Língua Gestual de São Tomé e Príncipe

1. Preâmbulo

O *II Dicionário de Língua Gestual de São Tomé e Príncipe* constitui uma versão revista, melhorada e aumentada do *Dicionário de Língua Gestual de São Tomé e Príncipe* (2014). A Língua Gestual de São Tomé e Príncipe nasce entre os surdos santomenses a partir do projeto Sem Barreiras, financiado maioritariamente pela Fundação Calouste Gulbenkian e também pela cooperação portuguesa, através do Instituto Camões assim como pelo Instituto de Ciências da Saúde da Universidade Católica Portuguesa, agora Faculdade de Ciências da Saúde e Enfermagem.

Esta 2.^a edição revista e aumentada foi possível graças ao financiamento do Instituto Camões através do Projeto ERGUES - Ensino e Reforma da Governação Educativa em São Tomé e Príncipe. O ERGUES é financiado pela Cooperação Portuguesa, através do Camões, I.P., e coordenado e cofinanciado pela AMVF e pelo IMVF. Tem como parceiros de implementação e cofinanciadores a Universidade de Aveiro, a Universidade de Évora, o Instituto Politécnico de Santarém e a Universidade Católica Portuguesa, e como parceiros de implementação e beneficiários o Ministério da Educação, Cultura, Ciência e Ensino Superior - STP e a Universidade de São Tomé e Príncipe.

2. Norma lexicológica

Definir o que deve constar num dicionário a nível da macroestrutura e da microestrutura, ou seja, quais as palavras ou gestos a incluir na nomenclatura, como deve ser a organização do dicionário (por temas e/ou por ordem alfabética), a inclusão ou não de traduções das entradas escolhidas (dicionários monolíngues, bilingues ou plurilingues), a informação a fornecer para cada entrada (informação sobre a fonologia, a semântica ou a sintaxe das entradas), e a inclusão de exemplos de uso ou imagens exemplificativas são opções a fazer pelo lexicólogo responsável pelo dicionário e que enformam e caracterizam o produto final. No caso do *II Dicionário da Língua Gestual de São Tomé e Príncipe*, a responsabilidade em estabelecer a norma lexicológica esteve a cargo do Prof. Doutor Paulo Vaz de Carvalho e da Professora Doutora Ana Mineiro. Participaram na equipa a Prof. Doutora Mara Moita, o Mestre Sebastião Palha e a Adaimé Neto Ramos, responsáveis pela recolha dos gestos que fazem parte da nomenclatura deste dicionário.

O *II Dicionário da Língua Gestual de São Tomé e Príncipe* é um dicionário bilingue (Língua Gestual de São Tomé e Príncipe e língua portuguesa) organizado em torno das vinte e uma seguintes áreas temáticas: Alimentação; Vestuário; Material; Escola; Transportes; Dias da Semana; Cores; Meses do Ano; Animais; Casa; Corpo Humano; Dinheiro; Emoções; Família; Geografia; Hábitos; Números; Profissões; Pronomes; Saúde; Outros.

Relativamente à 1.^a edição foram acrescentadas três categorias, concretamente as categorias dos Pronomes, Meses do Ano e Cores.

Dentro destes vinte e um temas foram recolhidos os gestos que aí pertencem sendo os mesmos filmados. A organização dentro de cada área temática é feita por ordem alfabética e salientamos que, logo no início, fornecemos o alfabeto manual santomense que ajudará o consulente nessa identificação. Cada área temática é precedida pelo hiperónimo ou nome dessa categoria em português (e.g., alimentação), contendo depois imagens fotográficas retiradas da filmagem dos gestos relativos ao nome da categoria e aos exemplares ou hipónimos dessa categoria (e.g., abóbora, amendoim).

As entradas para cada gesto escolhido na nomenclatura encontram-se organizadas a partir da ilustração referente a essa entrada que está acompanhada da palavra escrita em português e do gesto em fotografia. Ao lado da fotografia do gesto encontra-se também um código QR que dá origem a um *link* onde se pode visualizar o gesto em movimento. Os usuários deste dicionário, para acederem aos códigos QR, devem-se registar-se na plataforma Vimeo, que é gratuita. A opção por esta organização, de percurso onomasiológico, prendeu-se com o facto de querermos que este seja um dicionário para a escolaridade no sentido de incluir as crianças surdas no ciclo educativo e induzir o processo de aprendizagem da leitura e da escrita da língua portuguesa, num verdadeiro sentido de bilinguismo equilibrado e apropriado às pessoas surdas que não oralizam, mas podem escrever uma língua de modalidade oral. Pensamos assim que a alfabetização das crianças surdas ficará mais facilitada desta forma e que conduzirá aos níveis de literacia desejados na comunidade surda santomense.

Por ser uma língua emergente, optou-se por não fornecer informação gramatical, tendo este dicionário uma vocação fundamentalmente lexical, a nível do registo dos gestos estabelecidos e consensuais. Optámos por não incluir gestos que não se encontram ainda estabilizados e que, pela sua neologia no léxico, representam um risco de não lexicalização futura. Optámos também incluir os gestos da 1.^a edição que já se encontram em desuso em termos de frequência, mas que constituíram os primeiros gestos de um determinado objeto ou conceito (e.g., alho). Nesses casos o gesto antigo encontra-se com a referência de 2014 e é apresentado anteriormente ao gesto novo. Quando um gesto tem várias variantes — e não temos ainda dados sobre qual variante de gesto irá prevalecer —, optámos por incluir todas as variantes, numeradas, sendo a primeira a que tem uma maior frequência de uso e a última a quem tem a menor frequência de uso.

O público-alvo deste dicionário é fundamentalmente as crianças, professores e pais que usam esta língua, enquanto ferramenta para a comunicação. Incluir o abecedário gestual tem a função de auxiliar o consulente surdo na familiarização das letras e conseqüentemente promover a aprendizagem da leitura e da escrita.

O *II Dicionário da Língua Gestual de São Tomé e Príncipe* tem uma nomenclatura de 470 gestos enquanto que o *Dicionário de Língua Gestual de São Tomé e Príncipe* (2014) continha 280 gestos e uma lógica microestrutural distinta pois, sendo o primeiro produto dicionarístico, estava orientado para os primeiros gestos e para o vocabulário fundamental desta língua emergente.

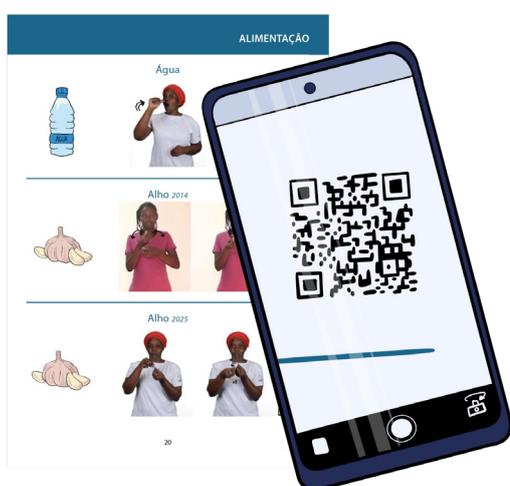

Neste caso, o atual dicionário incluiu uma nomenclatura cuja frequência de uso dos gestos é elevada, não excluindo, todavia, as várias variantes menos usada de cada gesto. A representação dos gestos, por fotografia, de forma estática (impressa) e com setas interpretativas do

movimento e orientação, dá também ao consulente deste dicionário a dimensão tridimensional que às línguas gestuais pertence, podendo o consulente usar o código QR para ver o gesto em movimento. Assim, este dicionário tem também uma faceta macroestrutural que convida à interação com níveis diferentes de aprofundamento da execução de cada gesto. A lista de setas que representam o tipo de movimento, enquanto elemento macroestrutural, encontra-se disponível antes das entradas.

O *II Dicionário da Língua Gestual de São Tomé e Príncipe* tem uma versão impressa e uma versão digital que pode ser descarregada em formato pdf para dispositivos eletrónicos.

3. Instruções para a visualização dos gestos em vídeo

1.

Utilize a câmara do seu telemóvel para ler o código QR.

Aguarde o aparecimento de uma notificação com um *link*. Quando surgir, toque na notificação para aceder à página *web*.

2.

3.

O *link* irá abrir uma página no Vimeo, onde estará disponível o vídeo correspondente ao gesto. Certifique-se de que tem a sessão iniciada na sua conta de utilizador, para poder visualizar o conteúdo.

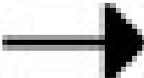

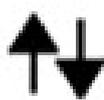

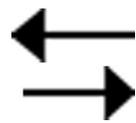

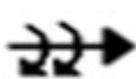

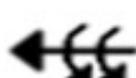

Nota: Caso o *link* abra uma página com publicidade, deverá:

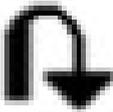

- Carregar no botão cinzento "Pular o anúncio";
- Aguardar 4 segundos;
- Carregar no "X" (cruz) localizado na barra cinzenta, no canto superior direito da página.
